## Features & Benefits

- **Strong, resilient and long lasting** - Highly resilient, tough and durable with high tensile and impact strength. It is also free from weaknesses caused due to rusting, weathering and chemical actions which helps it last considerably longer than GI pipe system.
- **Excellent chemical and corrosion resistant properties** - It is free from corrosion and has an excellent resistance against many chemicals like strong mineral acids, alkalis, salts as well as to a large number of organic solvents.
- **Most suitable for carrying potable water** - Being nonmetallic and made from special compounds, this system is free from corrosion, chemical reactivity and biological effects and hence most suitable for potable water transportation.
- **Maintenance free** - Being free from all the demerits of old systems like rusting, pitting, scaling, galvanic or electrolytic corrosion, Jalpurti Pipes can rightly boast of being maintenance free.
- **Overall economy** - Maintenance free, long life of a product which is light, can be cut, jointed and installed with little effort saves a huge amount of money over its life time.
